# Work Experience

## **Web developer** at [TopCV](#)

January, 2021 - Present

Maintain, design systems and databases, development projects and features for the company's productions, focus to the TopCV system and the internal operating systems. Training for another employees, and sometimes take the PM's role for some small projects.

## **Web Developer** at [Amit Group](#)

September, 2018 - January, 2021

Design systems, databases base on customer's requirements, develop and maintain the backend and frontend (admin sites) for most of the projects. I am also responsible for develop and deploy the products in all of its life cycle.

# Education

## **Bachelor in Software Engineering** from FPT University

2021 - Present

Learn to become true software engineering, I am always know that I must learn more and never stop if I want to go further, and I also want to take the certificates from the university.

## **Higher diploma in software engineering** from FPT Aptech

2017 - 2019

Learned to become a Developer, rounded my expects, and take a job, nothing more about it.

## **Bachelor in Nuclear Engineering** from HUST

2012 - 2014

I've learned at HUST, but then I left after 2 years because the major is not my favorite one.

# Projects

## [React hook guard](#) the open source

2021

A routing and guarding library for reactjs, base on react-router-dom 5. I made it after 3 months work with react and the original react-router-dom library. It's help me and my peers to easier control the routing, multiple layouts and authentication, authorization features of react app.

## [tindohanghieu.com](#)

2019

- Language - Framework: PHP (Laravel), MySQL, Angular, VueJs.
- Coverage: Backend ~ 90% - Frontend ~ 80% (Admin site).

## Various Projects from TopCV and Amit Group

2018 - present

I've developed and maintained various projects for TopCV and Amit Group. Such as the topcv.vn and its internal systems. Or other outsource products such as [E-Caf by Pan United](#) using Spring Boot - Java, or [tangthuvien.vn](#),... But because of the policies, or the products are not run anymore, so I can not show them here.
