## Education

### **Bachelor in Software Engineering** from FPT University

2021 - Present

Get a higher education to obtain the Bachelor's Degree.

### **Higher diploma in Software Engineering** from FPT Aptech

2017 - 2019

Took this course to get the basics of becoming a developer.

## Projects

### [React hook guard](#) the open source

2021

Successfully built a routing and guarding library for Reactjs based on React-Router-dom 5 after three months of working with React and the original react-router-dom library. It helps my colleagues and me control the routing easily with multiple layouts, authentication, and authorization features of React app.

### [tindohanghieu.com](#)

2019
